

## ENTERPRISE FUND

Currently, the only fund within the Enterprise Fund group is the Water and Sewer Fund. The four functional divisions within this fund are: Utility Billing, Engineering, Water and Sewer Operations and Information Technology.

City policy states that the Water and Sewer Fund maintain a fund balance of at least 25% of estimated expenditures. The City anticipates that the rate increase described below will result in an increase in the fund balance.

For FY 2013-2014, the volume charge for water increased from \$4.98 to \$5.53 per 1,000 gallons. The volume charge for sewer increased from \$6.70 to \$7.44 per 1,000 gallons.

Utility revenue will be used to cover operating expenditures, debt service for revenue bonds previously issued for water and sewer capital improvement projects (see Water and Sewer Capital Projects section) and for the Fund's annual contribution to the Joe Pool Lake Fund (see Special Revenue Funds section).

Water Services and personnel costs are the primary expenses in the Enterprise Fund, as reflected on the graph and table on the next two pages.
